THE LOKTAH ALBUM

Inspired by the natural beauty amidst the mountains of Nepal, this journal style album is a true piece of art.

Loktah's essential element is her organic paper, rising from a renewable source in the foothills of the Himalayas.

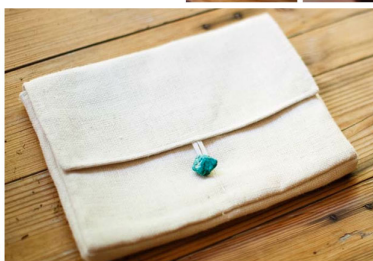

Each album is dipped in bee's wax to preserve the quality of the paper yet allow the product to age with natural beauty.

Soft twine gathered by an organic bead encircles your hand made and completely unique Loktah album.
